

Dear Friend,

Last year, we at Warren County Habitat for Humanity announced a project to provide a work space that would facilitate and encourage community interaction and collaboration. This year, we are happy to announce that we are targeting the grand opening of the Habitat for Humanity Community Center for the summer months.

The Community Center is a holistic approach that expands Habitat's traditional partnership with new homeowners and volunteers to include neighbors and local organizations for a far greater impact in the communities served.

We were awed in our discussion with local groups to hear dozens of amazing ideas for the kinds of groups and activities that could use the Community Center. Many included plans to provide educational or developmental programs for different segments of the community. Others expressed excitement for the opportunity to have space to initiate their programs.

In 2018, a US Department of Agriculture grant was secured enabling us to start planning for the center. A plan was developed for construction of the Community Center room at the site of our administrative offices on Belvidere Avenue in Washington.

Subsequent grants and a generous anonymous donation by a private group allowed us to be able to start the project with confidence it would be completed this year. Demo activities are currently underway at the site.

We are close to covering the complete cost of the Community Center construction, but we need your assistance to get across the finish line. Please consider helping us provide these opportunities at one of the contribution levels on the enclosed Sponsorship sheet.

Thanks for your continued support of Warren County Habitat for Humanity. As we celebrate our 20th year of service and reflect on our journey, one thing is clear. Without your help we would not be able to provide the programs that build and repair homes and, shortly, serve community groups.

Ben Eskow  
Executive Director, WCHFH
