

DONATION GUIDELINES

Updated 8/25/20

Thank you for supporting our mission.

***Please note that Safety is our #1 priority. This also extends to your personal property. All items are subject to visual inspection. Our on-site staff does reserve the right to refuse any donation if they identify it to be a risk to safety or due to condition.** Your donation directly supports our mission and any dumpster or waste cost would directly deter from the services we provide. You can help us eliminate risk by ensuring that your donation is easily accessible, preferably located on the ground level, in a garage, or outdoors. Donations from smoking or pet households are more likely to be denied on-site. If interest is expressed, on-site staff will provide donation alternatives for denied items, when possible. Please ensure that donated items are free of the following:

- Tobacco scent, burn marks,
- Pet dander, hair, odor, stains, bite/scratch/damage marks
- General wear and tear

Pets must be put away upon arrival, to ensure the safety of our drivers. Again, our on-site staff does reserve the right to refuse any donation due to safety or condition. Thank you for your help and continuous support!
