

DONATION GUIDELINES

Updated 2/15/22

Thank you for supporting our mission.

*Please note that Safety is our #1 priority. This also extends to your personal property.

All items are subject to visual inspection. Our on-site staff does reserve the right to refuse any donation if they identify it to be a risk to safety, due to spatial restrictions or due to condition. Your donation directly supports our mission and any dumpster or waste cost would directly deter from the services we provide. You can help us eliminate risk by ensuring that your donation is easily accessible, preferably located on the ground level, in a garage, or outdoors. *Donations from smoking or pet households are more likely to be denied on-site.* If interest is expressed, on-site staff will provide donation alternatives for denied items, when possible.

*DONATIONS MUST BE FREE OF: *

- Tobacco scent, burn marks
- Pet dander, hair, odor, stains, bite/scratch/damage marks
- NO Chips, Rips, Tears, Stains, Fading, Burn/Water Marks, Mold/Smoke Odors

Again, our on-site staff does reserve the right to refuse any donation due to spatial restrictions or conditions.
